

Centage Scores Top Ratings from Customers in the 2020 Pulse of Performance Management Research Published by BPM Partners

Natick, MA (June 18, 2020) – Centage Corporation (www.centage.com), the leading provider of cloud financial software that transforms how businesses budget, forecast, analyze and report was recently ranked as outstanding budgeting and planning software in the Pulse of Performance Management customer survey. BPM Partners is the leading independent authority on business performance management and evaluates the top performance management solutions for their ease of use, robust capabilities, success in the marketplace, wide appeal and customer satisfaction.

Centage is honored to have been awarded the highest overall score in the Budgeting/Planning Functionality category with an ‘Outstanding’ rating, along with a top rating of ‘Excellent’ in both Overall Satisfaction and Consolidation Functionality categories. Centage Planning Maestro was highlighted for its ease of use, low total cost of ownership, quick implementation, robust performance and flexibility.

“We are thrilled to receive this top recognition from BPM Partners, they are a very well respected and experienced firm in the fields of performance management, analytics, and business intelligence,” said John Murdock, president and chief executive officer at Centage. “To be specifically recognized for our solution’s budgeting and planning functionality is testament to our innovation, commitment to customer success, and ensuring our software helps our customers exceed their financial goals.”

“Centage is a very capable solution providing functionality that address the key areas that are required by finance departments of small to medium-sized businesses,” said Craig Schiff, president and chief executive officer of BPM Partners. “Their Planning Maestro solution and recent advancements of the product around integrated budgeting, forecasting, what if and scenario planning is a customer favorite as evidenced by achieving the highest score in the Budgeting/Planning Functionality category.”

Planning Maestro is a cloud-native platform for budgeting, planning, forecasting and analytics that delivers a level of sophisticated financial intelligence typically only enjoyed by large enterprises, at a price point that makes it accessible for small and medium sized businesses. The platform allows finance teams to integrate data from multiple sources, easily build and manipulate driver-based financial models, predict balance sheet and cash flow performance with accurate and automated forecasts, as well as run what-if scenarios to test the impacts of strategic decisions.
