

100% of Syntellis Performance Solutions Customers Surveyed by Leading Independent Authority on Business Performance Recommend Syntellis

Customers rate Syntellis Performance Solutions as outstanding and excellent in the BPM Partners 2022 Vendor Landscape Matrix

CHICAGO - August 10, 2022 – [Syntellis Performance Solutions](#), the leading provider of enterprise performance management (EPM) software, data and intelligence solutions, today announced it was highly rated for its Axiom suite of EPM software for healthcare, financial services and higher education organizations in [BPM Partners'](#) 2022 Vendor Landscape Matrix (VLM). The report objectively ranks active BPM vendors according to customer satisfaction with their current offerings and their relative momentum in the market.

With a 100% recommendation score from Syntellis customers that were surveyed by BPM Partners for the annual report, Syntellis' Axiom solutions were recognized as "Outstanding," the highest category for ease of use and report functionality. Syntellis was also recognized as "Excellent" for budgeting/financial planning functionality, operational planning and vendor/partner implementation.

"Syntellis is honored to be recognized by BPM Partners as providing powerful, easy-to-use intelligent planning and performance solutions that help society's foundational institutions, guide decision making and identify new opportunities for financial and organization success," said Flint Brenton, CEO of Syntellis Performance Solutions. "We are committed to continuous innovation to support customers as they serve their communities while facing an uncertain financial future."

Syntellis' suite of solutions integrates financial, operational and strategic data across industry-specific performance management solutions, using sophisticated data science to deliver real-time, actionable insights. The Axiom suite empowers institutions across healthcare, higher education and finance industries to analyze their financial results and interpret what is and is not working for their organizations. The cloud-based products

aim to improve budgeting, forecasting, planning, reporting and scenario modeling, arming financial leaders with an understanding of their organizations' needs and abilities so their planning can remain agile amidst market instability.

“The VLM is an invaluable tool for anyone looking to purchase, upgrade or replace a performance management system,” said Craig Schiff, president and CEO of BPM Partners. “We currently track more than 50 vendors that provide software to address one or more aspects of business performance management and related business intelligence. Only the most active vendors competing for and successfully delivering BPM solutions in the North American market are included in the VLM report. Syntellis stood out during this selection process due to their 100% recommendation score and for providing exceptional services that enable institutions to make well-informed, data-driven decisions.”

About BPM Partners

BPM Partners is the leading independent authority on business performance management (BPM) and related business intelligence solutions. The company helps organizations address their budgeting, planning, financial reporting, regulatory compliance, profitability optimization, key performance indicator (KPI) development, and operational performance challenges with vendor-neutral experts who can guide companies through their BPM initiatives from start to finish while both reducing risk and minimizing costs.
